

VITALUS™

VITALITY THROUGH NUTRITION

INPRObiotic

We offer this NEW ingredient for the health conscious consumer. A whey protein isolate containing *Bifidobacteria longum* BB536, a probiotic.

This friendly bacteria is stable throughout shelf-life and the passage through the digestive tract.

This ingredient is designed to deliver high quality protein with a probiotic effect. Scientific research shows that BB536 (the specific probiotic used in INPRObiotic):

- **improves intestinal environment**
- **stimulates immunity**
- **reduces cancer risk**
- **starts regularity**
- **suppresses harmful bacteria**
- **prevents diarrhea**

Ideal for health supplements, functional foods and drinks, and sports and clinical nutrition applications. Available bagged in various weights.
